About us

UKIC was formed with the vision of not only teaching the students to do result-oriented preparation but also educating them practically. Founded in 2015, UKIC has frequently proved successful in helping students realise their true potential by satisfying their curiosity for knowledge.

Through experienced staff, cutting-edge technology and passion for commerce, we at UKIC strive to acknowledge the students to work hard to achieve success. With student-oriented teaching techniques, we have guided many students and have been successful in assisting them to accomplish their desired results. Our tree of knowledge is full of the fruits of success stories. Over the span of five years, we have developed and improved our teaching process. We believe in moving with the age, and the 21st century is the age of technology. Therefore, with the help of technology, we use innovative ideas to arouse interest in the minds of the students

Through creative techniques of teaching, our faculty aims at reaching each student at a personal level. We believe that every student is creative in his/her own way. We at UKIC are experts at finding and bringing out this creativity in the students, especially in the field of commerce. UKIC is therefore known for its triumph as one of the well-known commerce classes for 11th and 12th as well as for B.Com. Therefore, UKIC is believed to provide the best commerce classes in Ahmedabad.
